

alumawall

Stackable sleeper

An extruded aluminium stackable plinth/sleeper designed to be used both as a plinth under steel panel fences or as a retaining wall sleeper.

- › Fits neatly into 'C' section posts of common steel panel fencing brands
- › Perfect for preventing weeds or debris from protruding through gaps in fence
- › Can also be used to level or increase the base height of the fence
- › 2385mm long x 150mm high x 50mm wide - check your 'C' section posts to ensure correct fitting
- › Specially designed heavy duty post available for retaining wall installations

Key benefits:

- › Sturdy aluminium design with a high quality powder coat finish
- › Easily width adjustable - simply cut Alumawall stackable sleeper to desired width
- › Unique design where bottom of sleeper clips onto next sleeper ensuring straight seamless finish
- › Alumawall fits easily into most 'C' section posts for easy install
- › Ideal solution for garden edging
- › Can be used as a retaining wall system by using our engineered post system

Colours available:

Primrose **AWALL-2385-P**

Paperbark **AWALL-2385-PB**

Woodland Grey **AWALL-2385-G**

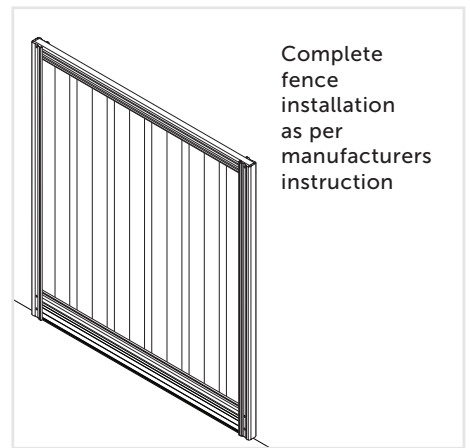

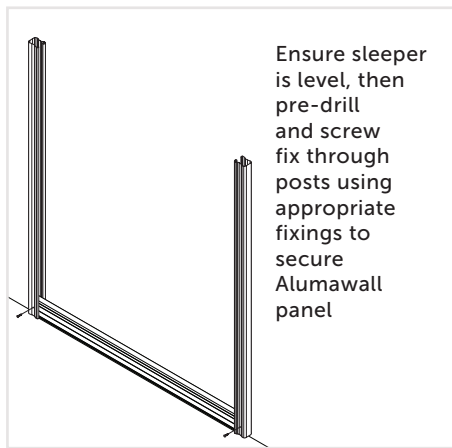

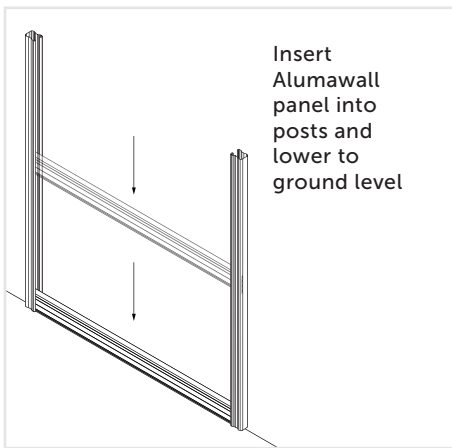

Monument **AWALL-2385-MN**
