

NEW RELEASE

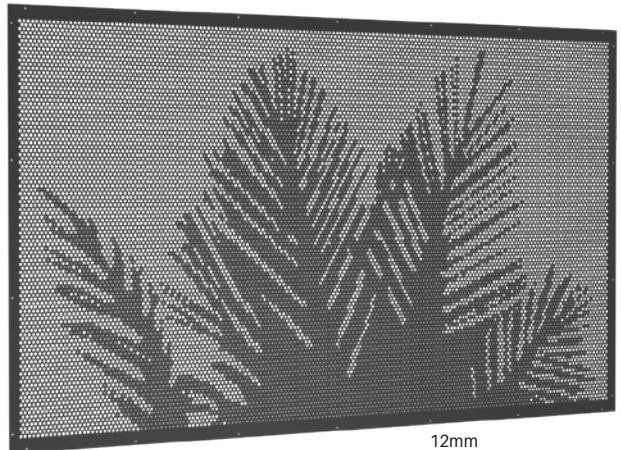

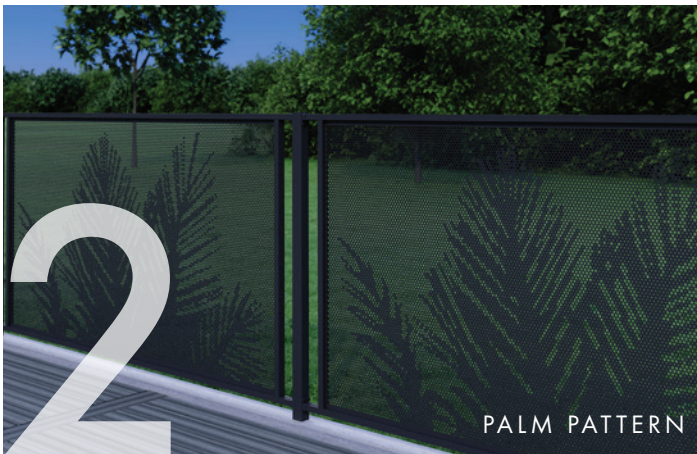

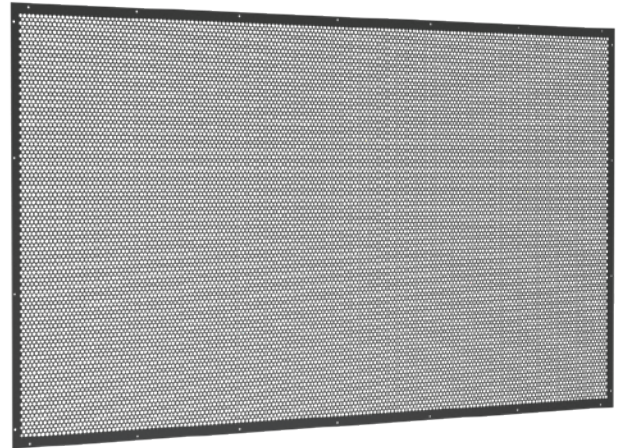

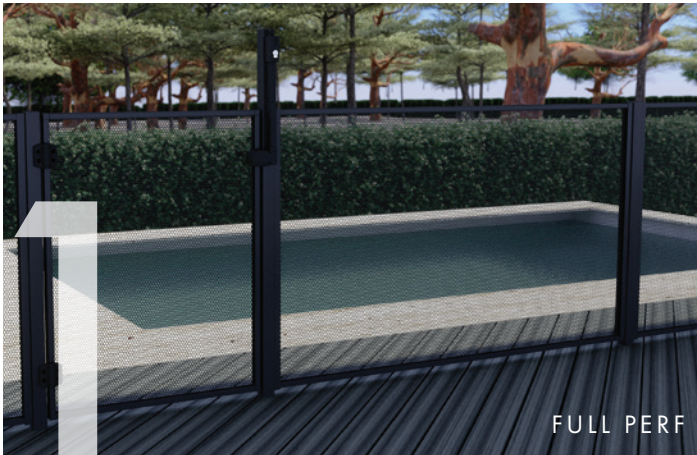

PREMIUM PERF FENCING

A NEW, EASY, 'NO MAINTENANCE'
FENCING SOLUTION

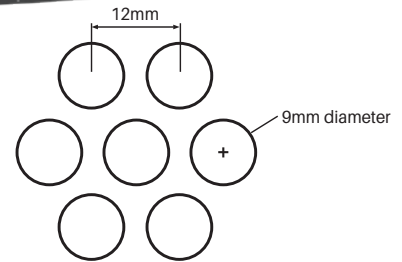

Premium Perf is an innovative new solution in the fencing industry with the added benefit of being pool fencing compliant. Perforated aluminium panels are extremely durable, corrosion resistant and are shatter proof. Benefit from excellent visibility through the panels resulting from the precision punching of 9mm diameter holes very close together.

2 stylish options...

TWO STYLISH DESIGNS TO CHOOSE FROM –
FULL PERF OR PALM PATTERN

HOLE PUNCH DESIGN ENSURES
POOL FENCING COMPLIANCE

Premium marine grade alloy 5052 H32, 2.5mm thick panels in full perf or palm with Akzo Nobel powder coat: matt black textured. Pool fence compliant. Framed panels are 2000mm wide x 1200mm high – easily height and width adjustable: simply cut to size. Minimal cleaning required and shatter proof – an exciting breath of fresh air and alternative to traditional tubular and glass fencing.

INNOVATIVE 2-PART FRAME

STEP 1

Place perf infill panel
against centre frame wall

STEP 2

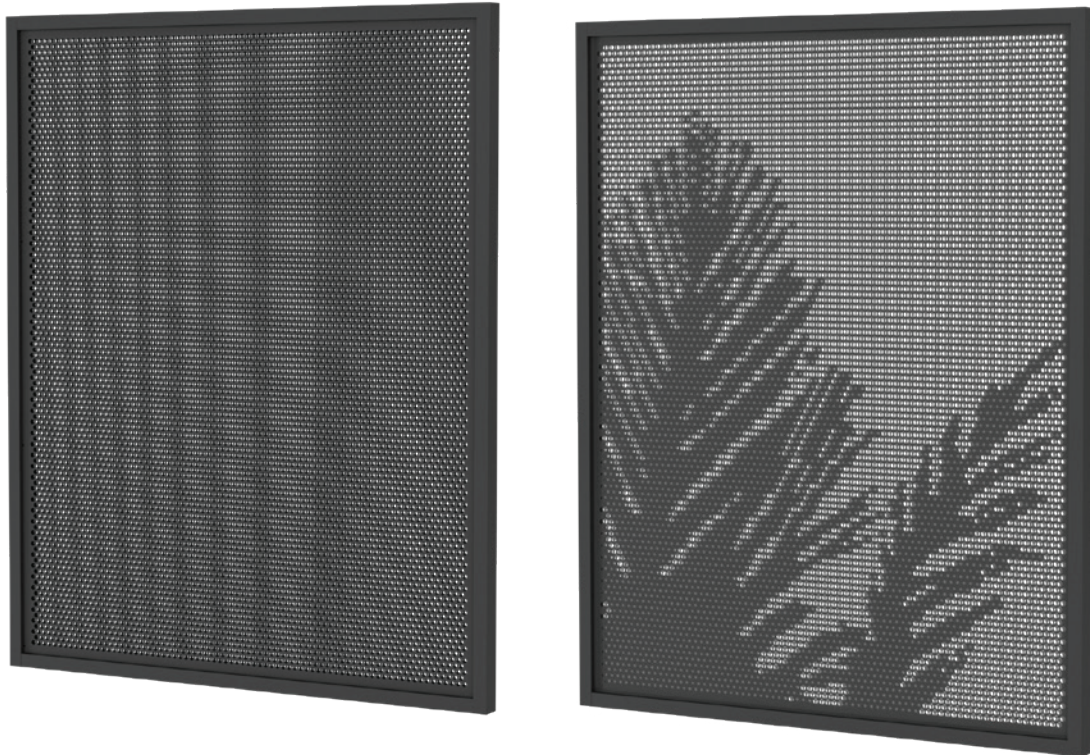

Screw off panel
and snap in cover

STEP 3

Completed 38 x 25mm profile
with hidden screw fixing

Pedestrian *gates*

Select between the Perf or Palm style of our fully assembled gate with 38x25mm framing. Framing style matches panel framing – satin black powder coated – with excellent visibility through punched panel. Pool fence compliant. For pool fencing latch, gate can be installed with side pull or top pull.
