

Overview

Glass Outlet now has available the **MADRID SQUARE** and **RIO ROUND** spigot ranges in powder coated MATT WHITE.

To achieve the highest quality finish, the stainless steel 2205 spigots feature a base coat epoxy primer onto which genuine Akzo Noble MATT WHITE powder is applied.

The combination of epoxy primer and powder coat ensure a premium powder coated finish.

The demand for matt white finishes is increasing and these new range additions perfectly meet the rising design trend.

Finishes —

Genuine Akzo Nobel powder coat

MATT WHITE Powder coat (with epoxy primer base coat)

^{*}Pool & balustrade load compliant. Contact us for engineering information.
